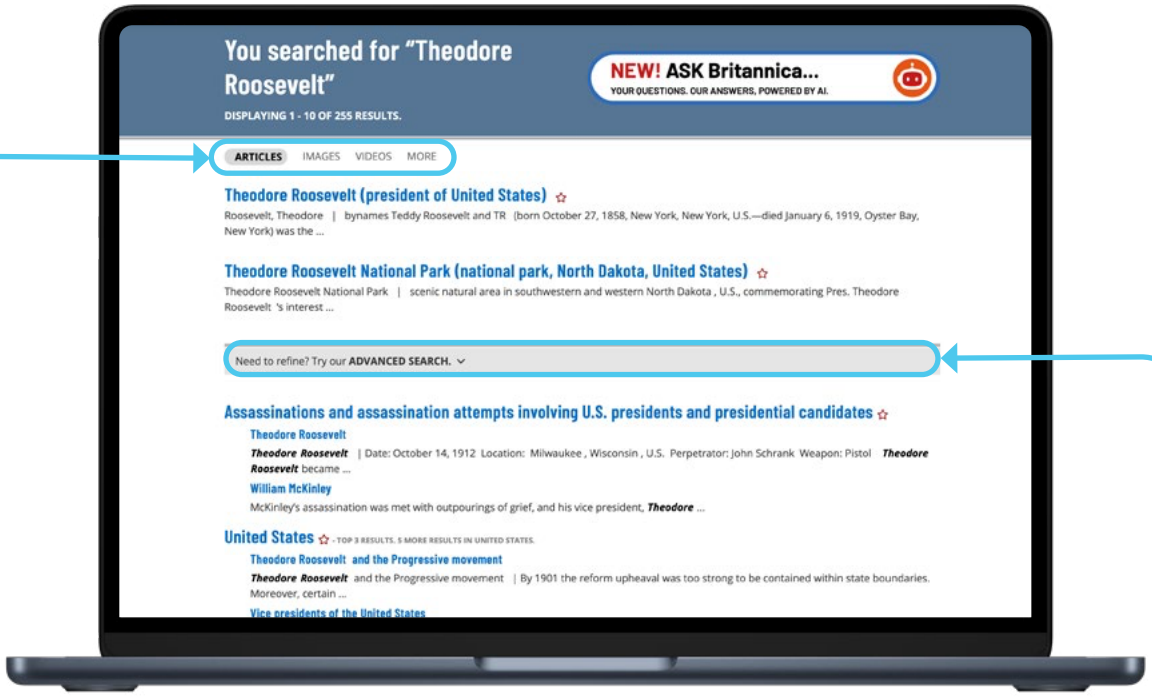
Search Made Simple

Two ways to search means two ways to tackle your research! Britannica Academic offers both a traditional keyword search with advanced search filters as well as ASK Britannica, the AI-powered enhanced search tool.

Search Britannica: Browsing made easy.

This search box functions like most website search engines: simply type in your topic or keyword to instantly display articles, images, videos, and more related to your search. Recommended articles will display even as you type!



View Results by Type

Click the tabs along the top of your results to find articles, images, videos, and more related to your search. Selecting **More** will expand your research results to Merriam-Webster Dictionary, magazine and journal articles, Web's Best Sites, and Primary Sources.

Refine Your Results

Don't see what you need? Try applying the advanced search, where you can look for an exact phrase or suppress certain terms.

Ever wondered? Just ASK Britannica.

Searching for trustworthy information shouldn't feel like finding a needle in a haystack. We are transforming how users access knowledge with ASK Britannica, an AI-powered secondary search tool.

How it Works

ASK Britannica answers your questions with information and insights from our wide-ranging collection of articles. For generations, knowledge-seekers have turned to Britannica for answers they can trust. ASK Britannica offers a new way to engage with Britannica content.

Simplifying Search

Ask natural-language questions and instantly receive reliable answers sourced from Britannica's content. No sifting through endless results, no distractions, just the facts.

Responsible AI

Unlike open-source AI tools, ASK Britannica is purpose-built for education. It won't write term papers, respond to inappropriate questions outside of the educational scope, or rely on unverified data.

Articles

Within each article, use these tools to gain additional context, organise research, and adjust readability.

Quick Access Tools

Share: Send articles and images via email, Google Classroom, Google Drive, or Microsoft Teams.

Favourite: Quickly add an article to your Favourites or Resource Packs. This is a great way of planning for a research project and gathering content in advance.

Print: Print the article from your device.

Cite: Generate citations easily in MLA, APA, Harvard, or Chicago style.

Translate: Translate the article into more than 100 languages using machine translation, powered by Google Translate.

Listen: Have the article read out loud. This tool highlights the text to help users follow along with the audio.

Font Up and Down: Increase or decrease the article's font size for accessibility.

Media View

Article: View the main content dedicated to this topic.

Images & Video: Isolate the article's media to one view.

Related: Jump to other articles within Britannica Academic for additional reading.

Article History: Get transparency into when the article was last updated and what was changed.

Table of Contents

Some articles are lengthy! Use this panel to jump directly to the subtopic that interests you.

Article Contributors

Learn who contributed to this article—much of the content found in Britannica Academic was written by world-renowned Nobel laureates, historians, professors, and other notable experts.

Double-Click Literacy Support

Support vocabulary acquisition by using the Quick-Click Dictionary. Simply double-click on the unknown word to access the Merriam-Webster Dictionary definition.

My Research

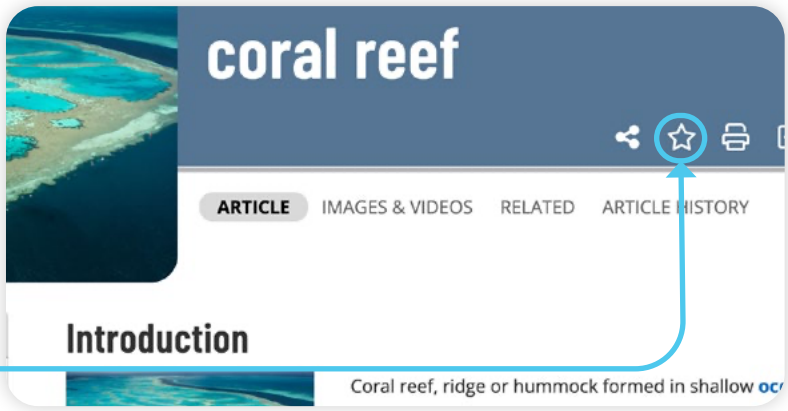
Set up a personal My Research account to view your favourite content and organise it into digital folders called Resources Packs. This account enables users to gather materials, take notes, and easily prepare for lessons or projects.

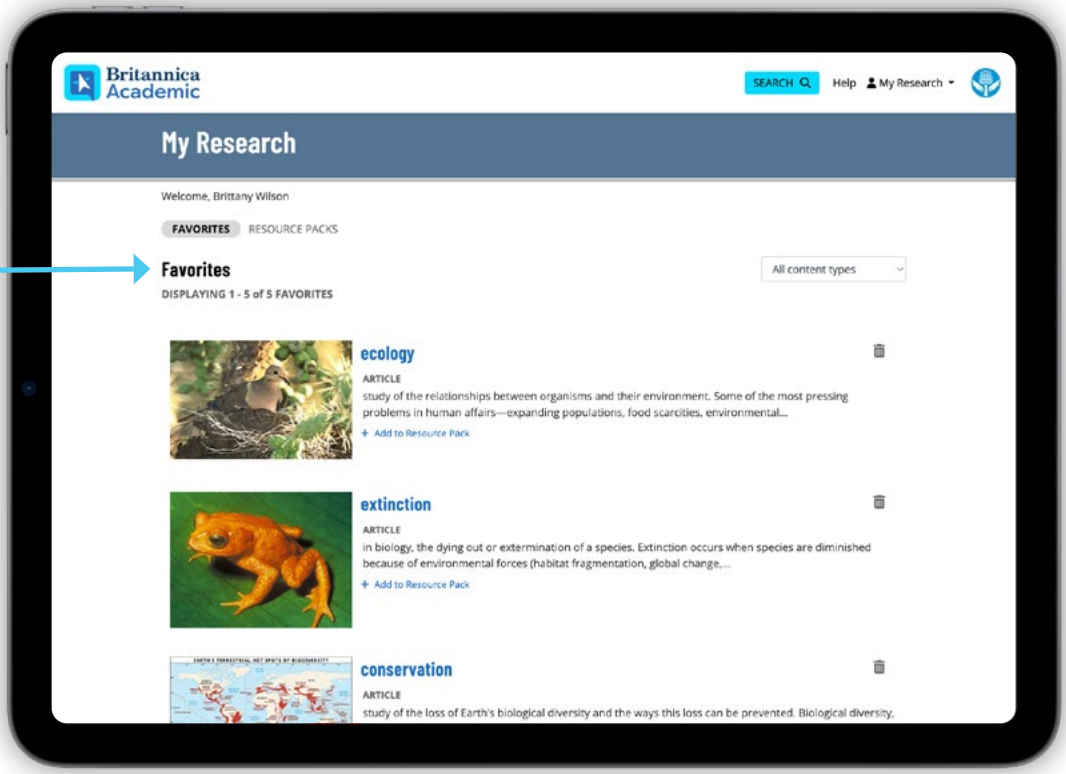
Account Setup

While you do not need an account to explore Britannica Academic, setting one up lets you save articles and media to reference later. Use the **My Research** button in the top-right corner of any page to sign in.

Favourites

Like a specific article or other piece of media? Favourite it using the star icon, and the article will appear in your Favourites list. Visit your My Research menu to scroll through your list at any time. The item you favourited most recently appears at the top.



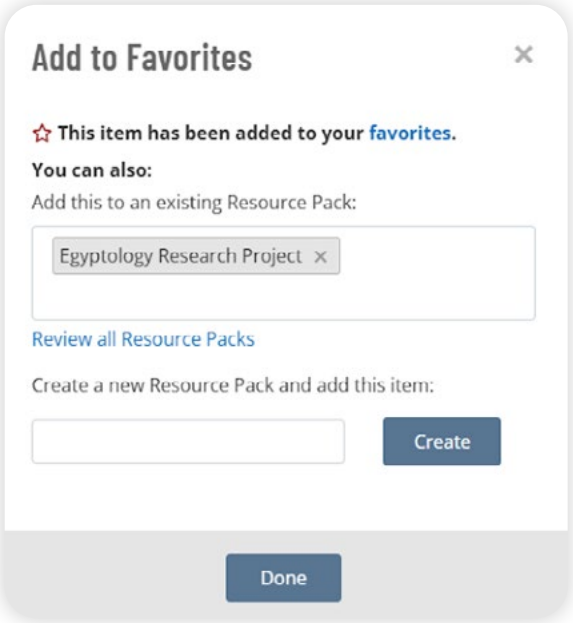


Note: Removing an item from the Favourites list will also remove it from any Resources Packs.

© 2025 Encyclopædia Britannica, Inc.

Resource Packs

Take it a step further and curate Resource Packs. As you favourites different pieces of media, you're also able to add them to a Resource Pack.



From your My Research account, you can edit your packs.
