

DID YOU KNOW?

It was once believed that technology was only for experts. But today, it's in our hands—helping us learn, connect, and create every single day.

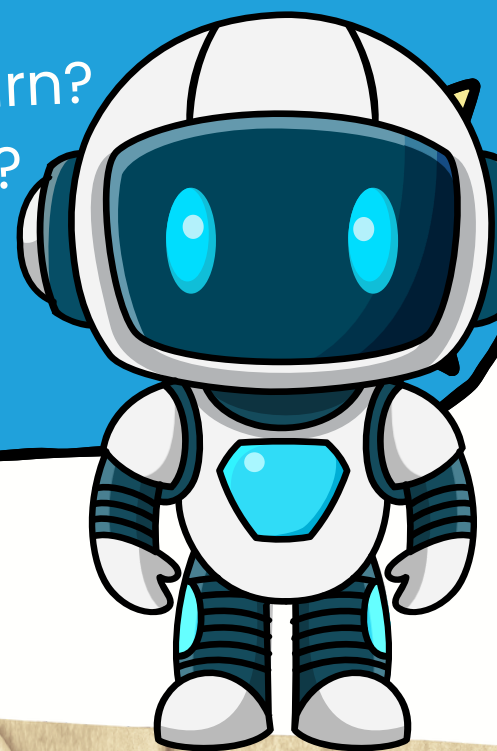

On National Technology Day, we celebrate the ideas and innovations that shape our world and push us forward.

What technology do you use every day—and how does it help you?

How is technology changing the way we live and learn?

What could the future look like with new innovations?
