## Search Bar

Support your pupils by helping them conduct a **keyword search** at the top of the homepage. Easily access the **exact article or media piece**, or view all results.

# Articles

Explore low-Lexile range articles appropriate for young learners. Articles are sectioned and collapsible with less text to support emerging readers. Pupils can listen to articles read aloud, cite the article, and share through various platforms.

## Easy-to-Use Navigator

Effortlessly **print, cite** in four styles (MLA, APA, Chicago, and Harvard), **adjust the font size** for readability, and **share articles** directly to Google Classroom, Microsoft Teams, or Google Drive for **seamless classroom integration**.

## Text Support Features

The **quick-click dictionary** allows you to quickly find definitions for any word. A **read-aloud feature** with word-by-word highlighting is available via the play button at the top of each section, supporting emerging readers.

Bees are **insects**. They buzz around.

ENGLISH

ESPAÑOL

in\*sect

noun \ 'in-,sekt \

- any of numerous small invertebrate animals (as spiders or centipedes) that are more or less obviously made up of segments —not used technically
- any of a class of arthropods (as butterflies, true bugs, two-winged flies, bees, and grasshoppers) with the body clearly divided into a head, thorax, and abdomen, with three pairs of jointed legs, and usually with one or two pairs of wings

## All About Bees

There are more than 20,000 species, or types, of bees.

Bees are interesting insects.

Encyclopædia Britannica, Inc.

## Video Support Features

Download videos, access transcripts, captions, and source info. Enable audio descriptors and subtitles to **support diverse pupil needs**.

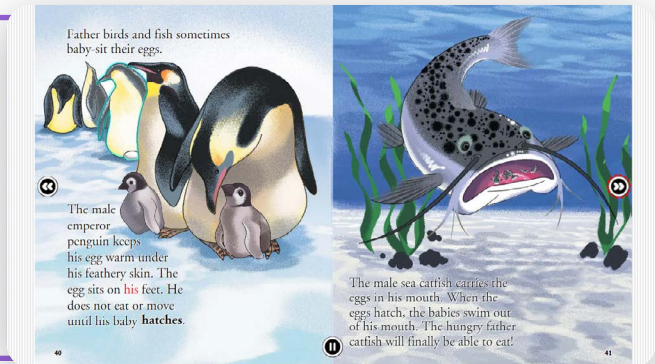

# Britannica Fundamentals

Inspire emergent learners to read, explore, play, and openly create in a vibrant environment filled with curriculum-aligned content and activities. Set the tone for a day of exploration and discovery with colorfully illustrated stories, captivating images and videos, interactive maps, and a fun digital art board.

## Read

Animated e-books introduce fundamental concepts and build language and comprehension skills. Topics range from animals and colours to places and shapes, with narrated, word-by-word highlighted text.

## Explore

In the explore section pupils can browse seven global biomes and see where they're located on the interactive map.

## Play

Interactive games build early literacy and maths skills with multiple-choice and drag-and-drop questions guided by animated characters!

## Create

Illustrate concepts or have fun drawing freely with brushes, colours, stickers, and backgrounds. Use the eraser, reset, and print options to customise and save creations.

# Teach Britannica: Resources for Educators

Teach Britannica is an educator's companion, offering ready-to-use resources that support instruction and enrich classroom learning for Early Learning pupils. Through this dedicated hub, educators can access tools like graphic organisers, instructional strategies, and lesson minis—all designed to make teaching easier and more impactful.

Educator resources to enhance learning

### Accessing Teach Britannica

Teach Britannica is easily accessible from the **Britannica Education icon** in the main navigation on Britannica School: Early Learning.

#### LESSON MINI

##### Seasons and Cycles

Grade: K-2

Topic: Science

Unit: Seasons

##### Overview

In this lesson mini, students learn about seasons and their effects on daily life. They observe and record local weather conditions, exploring how these change over time. Students also make observations at different times of year and relate the amount of daylight to each season.

Literacy

### Lesson Minis

These modular activities are designed **to promote personalised learning** and boost engagement. These minis include **options for differentiation, variations, and collaborative teaching**—ideal for lesson planning, sub plans, and real-world extension activities.

#### INSTRUCTIONAL STRATEGY

##### Draw It, Write It

Grade: K-2, 3-5

Type: Acquire Vocabulary

< 20 minutes

When: Before, during, and after reading

Materials: Draw It, Write It graphic organizer, whiteboard or display, writing utensil

##### Description

The Draw It, Write It strategy focuses on new vocabulary acquisition. Students draw a picture representing a new vocabulary word. Then they write a sentence using the word. This strategy encourages students to represent their understanding of the new vocabulary in multiple ways and practice using it in context. The strategy enhances comprehension skills, expands vocabulary, and improves overall language proficiency by engaging visual and written expression. This multimodal method helps students internalize new words more effectively, fostering deeper understanding and better retention of vocabulary in the long term.
