The Britannica Vision

At Britannica Education, our purpose is to empower educators to create engaging and meaningful learning experiences that ignite curiosity in their students. We believe that every student has the ability to learn and grow, and we are committed to supporting educators in their efforts to help their learners reach their full potential.

To achieve this goal, we take a distinct approach that combines an expansive and diverse collection of educational resources, including nonfiction articles, images, videos, and interactive activities, with ongoing professional learning and support for educators. We believe that by providing PreK-12 educators with the tools and support they need, we can help them create a learning environment that inspires and engages learners of all abilities.

Our products and services include a vast selection of standards-aligned digital curriculum resources, assessment tools, and professional learning programs that are designed to help educators effectively and efficiently plan, deliver, and assess instruction. Whether you are a teacher, curriculum specialist, or administrator, Britannica Education has the go-to support you need to help you succeed in your role.

Britannica School Early Elementary

Britannica School Early Elementary is designed for PreK-2nd grade early learners with low Lexile range articles, age appropriate images and videos, and engaging interactive features to support young students!
