Content You Can Trust

An abundant lineup of meticulously fact-checked and fully-cited content on every subject.

World-Class Reference Toolkit

Access to research tools like The World Factbook, Merriam-Webster Collegiate Thesaurus, primary source documents, ebooks, and more.

Responsible AI

Unlike other open-source tools, our AI-powered search function, ASK Britannica, is purpose-built for education—it won't write essays, provide inappropriate answers, or rely on unverified data.

The Most Trusted Research Resource for Colleges and Universities

Comprehensive & Authoritative Research Tool

Provides access to hundreds of thousands of articles, primary sources, images, videos, and more.

Covers a wide range of disciplines, from history and science to literature and social sciences.

Features contributions from Nobel laureates, historians, and subject-matter experts.

Seamless Accessibility & Integration

Accessible anytime, anywhere on any device, Britannica Academic integrates seamlessly with LMS, library portals, and discovery tools while supporting multilingual learners with translation and text-to-speech features.

Supports Faculty & Student Success

A trusted alternative to Wikipedia and generative AI models for academic research.

Provides citable, authoritative sources to support student essays, research projects, and faculty lesson planning.

Reduces the time spent vetting sources, allowing students to focus on analysis and comprehension.

Search Made Simple

ASK Britannica, the new AI-powered secondary search, delivers concise, contextualized answers directly from Britannica's trusted content.

Each response is paired with linked articles, ensuring transparency and deeper exploration.

Intuitive interface with advanced search functions to help students and faculty quickly find what they need—no sifting through endless results, no distractions, just the facts.

Teach Britannica

Enhance research and critical thinking with Academic Toolkits on **Teach Britannica**—ready-to-use resources designed to help students master essential research skills with confidence.
