

Britannica Expedition:LEARN!

Reliable, Trusted & Ready to Teach!

Spark curiosity and save time with ready-made science and social studies lessons that build content knowledge, reading comprehension, and critical thinking skills.

Ready-Made Lessons

Engage students with quality, fact-checked, standards-aligned science and social studies content to develop content knowledge and disciplinary literacy skills.

Real-Time Data

Provide immediate feedback with real-time data-driven, skill-based reports and formative assessments, allowing teachers to make informed instructional decisions.

Save Time

Maximize instructional time with ready-made teacher materials and toolkits; adapt lessons to meet student needs, drive engagement, and increase academic achievement.

Teach Like a Britannica Expert

Expedition: Learn! combines trusted Britannica content with innovative tools to create an engaging learning experience.

1

STEM Lessons and Hands-on Activities

Deepen conceptual understanding of scientific concepts with STEM lessons and hands-on activities.

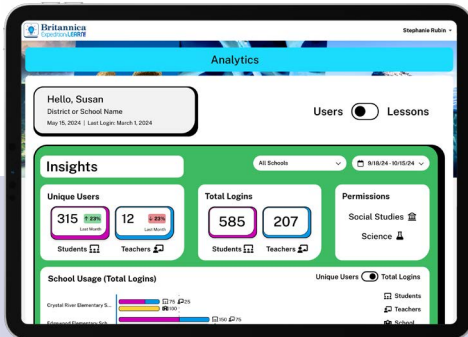

2

Unbiased Social Studies Content

Provide students with trusted, standards-aligned social studies content.

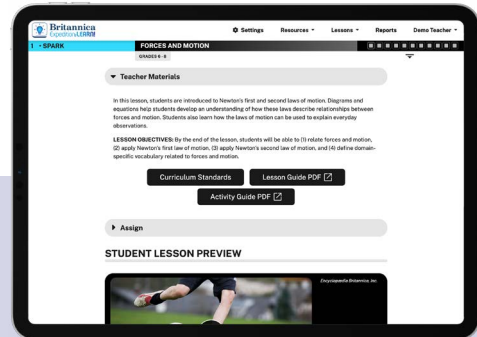

3

Progress Monitoring

Pinpoint opportunities for growth with whole-class and individual student data.

4

Tools for Differentiation

Maintain rigor and meet students where they are with OpenDyslexic font, read aloud, four reading levels, and more.

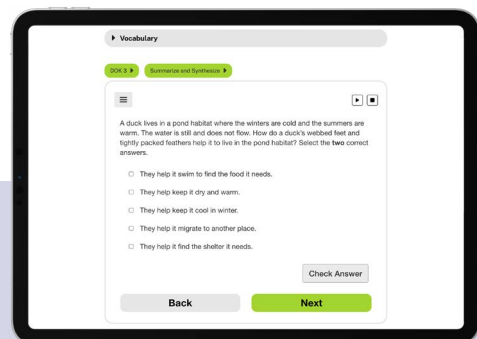

5

Multilingual Learner Support

Translate science and social studies content into over 200 languages.

6

Test Prep Options

Check for understanding with built-in formative assessments to practice analysis, problem-solving, inferences, and more.
