# Spark Creativity with Visual Exploration

**Britannica ImageQuest Jr.** offers a vibrant and secure visual learning environment tailored for PreK-2 students and educators. Emphasizing safety, it's the perfect choice for a worry-free browsing experience. The platform features thousands of hand-selected, rights-cleared images and videos to enrich lessons and spark young learners' curiosity. Its intuitive interface encourages exploration and creativity in various subjects. Additionally, educators can customize learning by creating subject-specific albums, seamlessly integrating these resources into classroom activities for distinct educational experiences.

# Save and Organize Favorites

Easily save media as favorites by clicking the heart icon under each image or video. Use your My Britannica account to permanently save pictures and videos and organize them into albums for later use. Add notes to an album or share it to support digital learning!

---

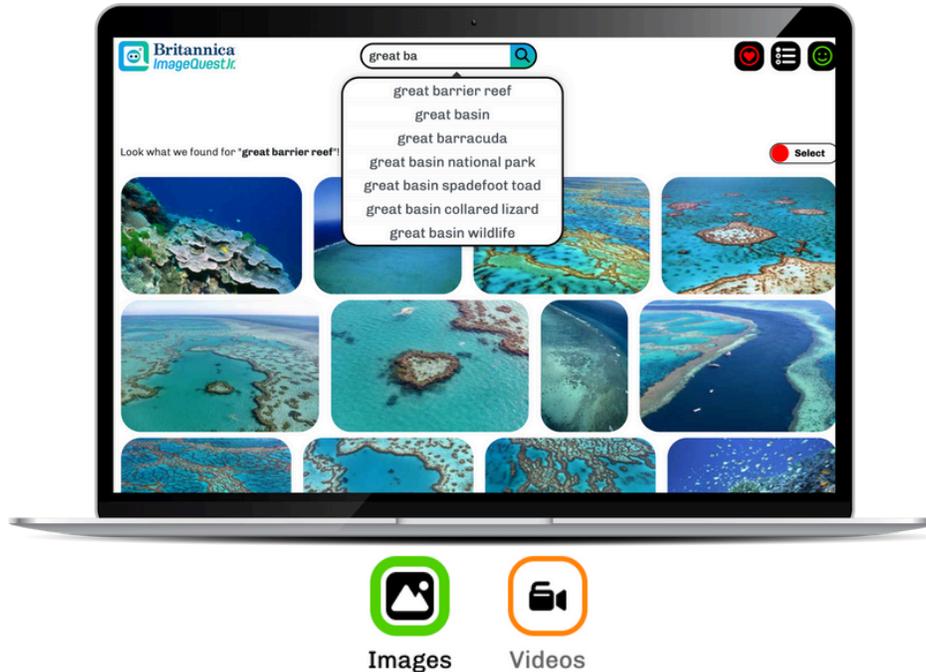

## Save Media

Students can easily save content by clicking on the heart icon under each image or video. Content can be saved for a single session when not logged in to a My Britannica account. Login to your account to permanently save and access your favorited content and creating albums!

---

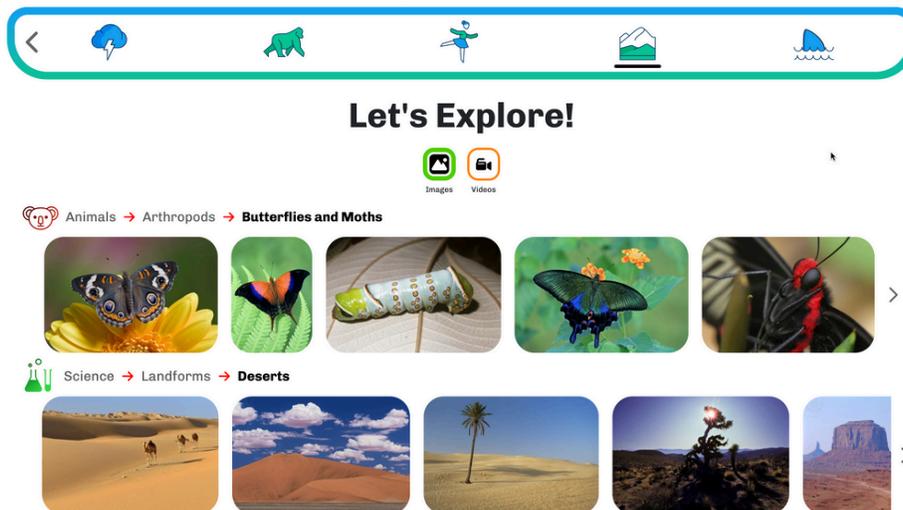

## Favorites and Albums

Access your saved media pieces through the heart icon. From here you can easily create a new album and add favorited images and videos to it. Easily edit album name, add notes, and share your album with others!

## Suggested Search and Filters

Easily search the thousands of images and videos available on **ImageQuest Jr.** through the search bar at the top of the homepage. Choose from the suggested searches or click on the magnifying glass to see all results. Simply toggle between image and video results to find the perfect media piece!

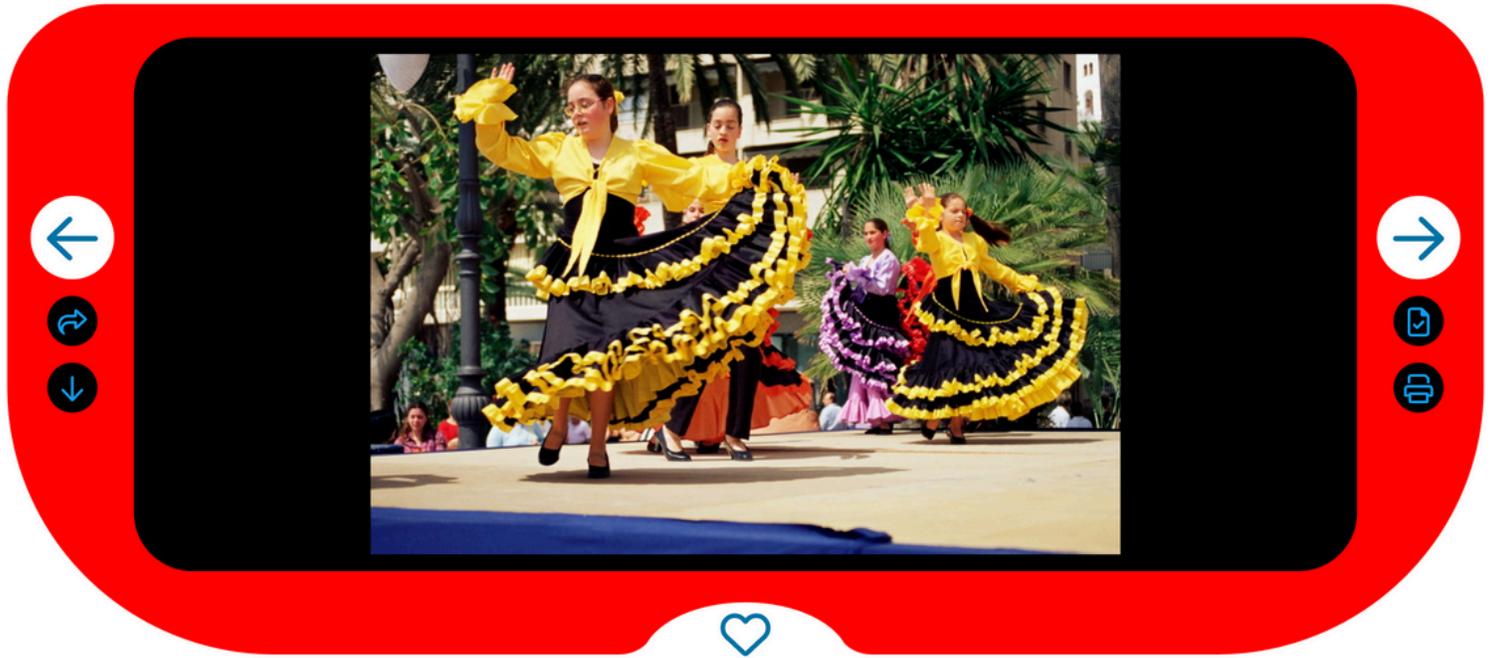

## Explore Curated Galleries

On the **ImageQuest Jr.** home page, you'll find carefully curated, age-appropriate galleries of images and video clips to explore! Browse the best-quality images and videos from our most popular searches to quickly find the content you're looking for. Fun animations and visuals spark student interest and support learning!

# Share, Cite, and Download

Students and educators can use images and videos to support classroom instruction! Include media in lessons and activities to increase media literacy and support visual learning.
