Content You Trust.
AI That Brings It to Life.

Studio pulls directly from Britannica School's verified articles, ensuring every AI-generated output is rooted in trusted, accurate content. Teachers get source-linked passages, quizzes, summaries, and leveled texts, all pointing back to original Britannica School references.

AI Powered by Britannica. Designed for Teachers.

Britannica Studio is the only AI workspace built directly on Britannica School's knowledge base, instantly turning authoritative content into engaging instructional materials. Studio brings the speed of AI together with the accuracy teachers expect, supporting a complete workflow from discovery to differentiated instruction.

Britannica Studio Delivers:

The quality of the materials has been unmatched. The information is trustworthy and detailed. All other AI writing engines or article generators that I have used are vague and nondescript."

– Arkansas Teacher

Banking Reforms

Differentiation Without the Extra Work:

Generate leveled texts, scaffolded summaries, vocabulary supports, and assessments for every type of learner—advanced, multilingual, and emerging readers—in a single step.

The two products work together to create a continuous learning ecosystem:

Discover content. → Build lessons. → Differentiate. → Teach with confidence.

From “No Time” to “Ready to Teach” in Minutes

Paired together, Britannica School and Britannica Studio offer something no other platform can: trusted content and trusted AI working in one seamless ecosystem.

Two Products. One Powerful Teaching Experience.

Britannica School

Provides the authoritative, age-appropriate content teachers and students rely on.

Britannica Studio

Transforms that content into ready-to-teach resources like passages, summaries, questions, vocabulary, and differentiated versions, in minutes.

Together, they deliver:

- ✦ Accuracy and transparency
- ✦ Time-saving workflows
- ✦ Consistent instructional quality
- ✦ Built-in differentiation
- ✦ Responsible AI teachers can model for students
- ✦ Confidence that every resource is grounded in trusted content

What I like most about the tools in Britannica Studio is how simple and efficient they make resources. Each tool is easy to use, and the clear workflows save a lot of time. I also appreciate how the tools provide high-quality, ready-to-use instructional materials that I can quickly customize for my students' needs. Overall, the experience feels streamlined, reliable, and teacher-friendly.”

– Dr. Natasha Blades, Digital Learning Coach, Georgia

**It's future-ready teaching, today.
And this is just the beginning.**
