Britannica Escolar delivers native Spanish content written by Latin American experts, combining trusted knowledge, cultural relevance, and a modern design to empower bilingual, multilingual, and Spanish-first learners at the college level.

### Build critical thinking and prepare for college

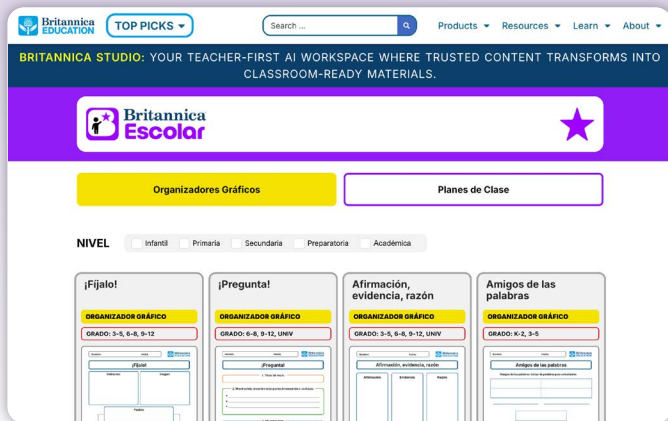

- Comprehensive, academic-level resources
- Expanded coverage of Latin American history and culture
- Primary sources to build critical thinking

# Why Choose Britannica Escolar?

- **Authentic Spanish content written by Latin American experts:** All articles are crafted in native, universal Latin American Spanish, ensuring accuracy, cultural relevance, and language authenticity.
- **Culturally relevant resources:** Content includes Latin American history, traditions, holidays, and global culture.
- **Modern, intuitive design for easy navigation and engagement:** Redesigned interface and simplified navigation help learners find content quickly.
- **Extensive, evolving content library:** Escolar offers a broad and growing repository of trusted information and media.
- **Accessible and inclusive support:** Native Spanish and culturally inclusive content supports multilingual and dual-language classrooms as well as English-language learners studying in Spanish.

## Access Instructor Resources through Teach Britannica, No Login Required

Teach Britannica is an educator hub designed to streamline instruction with Britannica resources. Built by educators for educators, it offers practical support to save instructors time.

Visit [teachbritannica.com](https://teachbritannica.com) to find a variety of native Spanish resources—such as graphic organizers designed to organize ideas, make connections, and communicate understanding—and academic toolkits to help college students hone their research skills.
